Dr Ahmad Al-Hassiny's

Review of Straumann SIRIOS™

“One of the most exciting things is that Straumann now finally have a good intraoral scanner in their portfolio.”

“Purchasing Alliedstar is in my opinion one of the best acquisitions in the IOS market as of late, because the hardware is very good.”

“On top of that, Straumann announced a MIDAS collaboration at IDS 2025, meaning the company now was a total in-house CAD/CAM workflow - scan (SIRIOS), design (CARES), print (MIDAS).”

“One of only two or three scanner companies that can make this claim.”
